

heimatec.Capto™ for MIYANO ANX-42SYY

Axial drilling and milling head

Web	Part Number	Coolant	Pressure max
W	8 010 35 020	Ext	
	8 019 35 012	IC/Ext	140 bar

Radial drilling and milling head

Web	Part Number	Coolant	Pressure max
W	8 030 35 031	IC/Ext	140 bar
W	8 030 35 032	IC/Ext	140 bar
W	8 039 35 008	Ext	

Tool holder

Web	Part Number	Coolant	Tool adaption
W	8 229 05 008	IC	heimatec Capto™ C3
W	8 229 05 009	IC	heimatec Capto™ C3
W	8 240 05 067	IC	heimatec Capto™ C3
W	8 240 05 068	IC	heimatec Capto™ C3
W	8 249 05 010	IC	2 x heimatec Capto™ C3

Multiple tool holder

Web	Part Number	Coolant	Tool adaption
W	8 250 05 005	IC	2 x heimatec Capto™ C3
W	8 250 05 006	IC	2 x heimatec Capto™ C3
W	8 259 05 013	IC	2 x heimatec Capto™ C3
W	8 259 05 014	IC	2 x heimatec Capto™ C3
W	8 259 05 015	IC	4 x heimatec Capto™ C3
W	8 259 05 016	IC	2 x heimatec Capto™ C3
W	8 259 05 017	IC	4 x heimatec Capto™ C3

heimatec.Capto™

Modular quick change system for turning and machining centers

heimatec.Capto™ increases efficiency in set-up and tool changing times for lathes and machining centers

With heimatec.Capto™, heimatec is expanding its product range with a further modular tool quick-change system, which significantly increases the efficiency in set-up and tool changing times. heimatec.Capto™ is extremely flexible and offers a wide modularity as well as a great variety of change-over inserts for lathes and machining centers.

Coromant Capto® is an international widely used modular tool quick-change system that can be utilized in all machine types. The special advantage is the substantial reduction in set-up and tool changing time and greatest tool flexibility.

With heimatec.Capto™, heimatec is expanding its product range with a modular tool quick-change systems. In addition to a wide range of standard tools with capto adaptations, the heimatec.Capto™ program also offers a large number of specific tools designed for machine optimization.

The modular quick-change system heimatec.Capto™ is characterized by a compact design of short overall length, which allows to perform high cutting speeds, while at the same time achieving best surface qualities. The heimatec.Capto™ tool quick-change system is available for Capto sizes C3, C4, C5, C6 and C8.

heimatec.Capto™

- Easy and fast handling
- High accuracy and flexibility
- Flexible with extensive modularity
- Minimized tooling time
- Exactly coolant supply through internal coolant solution
